16H70 & 16T85 are used with Alumatilt balances.

UK132 & UK133 are used on pre-tensioned balances and have tufnol inserts added to enhance the capability of maintaining a stable position of the sash when in the tilt position.

All of the information shown on this data sheet was correct at the time of issue. All information however is subject to change and therefore it is advisable to check with Caldwell Hardware to ensure that you have the latest issue level.
